

Novi Ierusalim, God's Design

In God's design there are no fallacies
All we need is there
Everything was created
Beautiful, beyond compare
God's plan is perfect and right
No one's sick, no one's hungry
Weaknesses have there no might

In God's design there is no loneliness
Hearts are open wide
No one ever is crying
In despair through the night
And you don't have to pretend
No one will let you down there
A friend will not betray a friend

Bright colors shining
In God's design
There are no tears, pain or fear
There is no loneliness
Made by God's hand
New life was planned
Come find your place
In God's design, come
To the Light of life

In God's design there is a place for everyone
Precious is your heart
Since the first breath of your life
You have been God's work of art
Who could love you like He does
To bring change into your life
His only Son He sacrificed
