

NSB, Misery

And if you want to leave
Then I'm playing defense
why you acting different
Round these people
acting like you're one of them

Say you want to breathe
But you're the one with hands around my neck
I'm tryna let you go but I'm obsessed
I'm impulsive

You keep tearing me apart but I'm out here falling
And I'll let you drive my cars but you crashed them all in
But I'd rather die
see you with another guy
Even though you lie
Leaving you is suicide

You bring terror to my heart, ill still let you crawl in
And I love you for your scars, but I hate these problems
But I'd rather die
See you with another guy
Even though you lie
Leaving you is suicide

If you wanna go
Then pack up all your shit and leave out that door
It hurts me even more to know that you're still here waiting on me (waiting on me)

I'm not heard
I needed you to love me first
I come back to you to make it work
A thousand times I've told you and I'll tell you again (tell you again)

You keep tearing me apart but I'm out here falling
And I'll let you drive my cars but you crashed them all in
But I'd rather die
see you with another guy
Even though you lie
Leaving you is suicide

You bring terror to my heart, ill still let you crawl in
And I love you for your scars, but I hate these problems
But I'd rather die
See you with another guy
Even though you lie
Leaving you is suicide

Suicide
Suicide
Leaving you is suicide
I need you to love me but instead you left me here to die
Suicide
Switch the sides
Come back to me every night and every night you ruin mine

Take me out of my
Misery
Let me down from my
Hopes and dreams
Take me out of my

Misery

Let me down from my
Hopes and dreams

You keep tearing me apart but I'm out here falling
And I'll let you drive my cars but you crashed them all in
But I'd rather die
see you with another guy
Even though you lie
Leaving you is suicide

You bring terror to my heart, ill still let you crawl in
And I love you for your scars, but I hate these problems
But I'd rather die
See you with another guy
Even though you lie
Leaving you is suicide

Suicide
Suicide
Leaving you is suicide
I need you to love me but instead you left me here to die
Suicide
Switch the sides
Come back to me every night and every night you ruin mine
So who am I
