

# Nu Flavor, Heaven

First time I saw you girl,  
You turn me upside down  
I can't stop thinking bout you  
My head is spinning round  
I got to find away to get with you somehow  
Girl I'm so crazy for you  
You know I want you now  
And everyminute of every single day  
I'm dreaming of how it could be  
And everynight before I go to sleep  
I'm praying that soon you'll be here with me

[Chorus]

Heaven, heaven oh heaven can't you help

Heaven oh heaven can't you help me  
I'm down on my knees please help me

Cant fall asleep tonight  
I don't know what to do  
I hold my pillow but I wanna be holding you  
And when close my eyes I always see your face  
I know my happiness is only kiss away  
And every hour here in the dark  
Every beat of my lonely heart  
Tells me that I need to be with you  
Heaven oh heaven what can I do

[Chorus]

Heaven, heaven oh heaven can't you help me  
I'm giving my love for eternity  
Heaven oh heaven can't you help me  
I'm down on my knees please help me

[Instrumental]

Girl I'd give anything if you were here with me  
Give anything you want and anything you need  
I never thought that I could feel the way I do  
But now I wanna spend the rest of my life with you  
And every day that we are apart  
I'm shedding this love here in my heart  
And everynight before I go to sleep  
I'm praying that soon you'll be here with me

[Chorus]

Heaven, heaven oh heaven cant you help me  
I looked in her eyes now shes all I see  
Heaven oh heaven cant you help me  
I'm down on my knees please, heaven

Heaven....[repeat until fade]
