

# Nu Flavor, Whenever

Girl you can't imagine  
The way I feel today  
I feel like a miracle  
Has finally come my way  
And I've wanted oh so long  
To find a girl like you  
And now that you're in my life  
You've made all my dreams come true

[CHORUS:]

Whenever you want me  
I will be right here for you, do anything you want me to  
Whenever you need me  
I will be right by your side, forever 'til the end of time  
Whenever you want me

Anytime you're feeling blue, girl I'll be there to comfort you  
Whenever you need me  
I will be right by your side, forever 'til the end of time  
you are so beautiful  
you take my breath away  
Whenever you smile  
It brightens up my day  
And there's no place I'd rather be  
Than right here by your side  
Holdin' you in my arms  
Feeling your heart beat next to mine

[CHORUS]

And every breath I take, is filled with love for you  
And every move I make, I do it all for me and you  
you are my love, and my best friend  
And you know I'm down for you, by your side through thick and thin
