

O-Town, See You Again

Ohhhh!
I like your style
I love your smile baby

Taken my durability
Taken the ability
To push this in the right direction

See you again
Baby
And I hope that I can see you again

I don't wanna know that I can count her out
You're too scared to talk about
Things I wanna say so privately
I want your secrecy

So come a little closer
Girl I want to know
What's in your heart
What's in your soul
My body's poisoned
Body's sayin'
That you'll lead me there

Sunlight at the dance floor
Diamonds fancy restaurants
I know that it ain't all it seems

Hold on!
Before you judge me
Come on!
just try and love me
You'll see!
That I'm the man in your
Dreams!

See you again..
