O-Town, See You Again

Ohhhh! I like your style I love your smile baby

Taken my durability Taken the ability To push this in the right direction

See you again Baby And I hope that I can see you again

I don't wanna know that I can count her out You're too scared to talk about Things I wanna say so privately I want your secrecy

So come a little closer Girl I want to know What's in your heart What's in your soul My body's poisoned Body's sayin' That you'll lead me there

Sunlight at the dance floor Diamonds fancy restaurants I know that it ain't all it seems

Hold on! Before you judge me Come on! just try and love me You'll see! That I'm the man in your Dreams!

See you again ..
