Ocean Colour Scene, These Days I'm Tired

These days I find I'm picking up all of it These days I'm tired and low And you don't care what you find You're messing up all of it These days you're tired

Then you forget the time to be Free you walk in the line Then you forget the time to be Free you walk in the light's on

These days you find you're picking up all of it These days you're tired and low And you don't care what you find You're losing all touch of it These days you're tired

Then you forget the time to be Free you walk in the line Then you forget the time to be Free you walk in the light's on
