

# Of Montreal, Friends Of Mine

When we're all in a crowd  
And you catch her eye  
And then you both smile  
I feel so good inside  
And when I'm with her  
She talks about you  
The things that you say  
The things that you do

It feels so good to know two people  
So in love  
So in love

They are friends of mine  
They are friends of mine  
And they've got something  
It's so hard to find  
They are friends of mine  
They are friends of mine  
And they've got something  
You don't often find

She takes your hand  
When the world stays outside  
That's something to see  
That's nothing to hide

And when I feel bad  
When people disappoint me  
That's when I need you two  
To help me believe

It feels so good to know two people  
So in love  
So in love

They are friends of mine  
They are friends of mine  
And they've got something  
It's so hard to find  
They are friends of mine  
They are friends of mine  
And they've got something  
You don't often find

It feels so good to know two people  
So in love  
So in love

They are friends of mine  
They are friends of mine  
And they've got something  
It's so hard to find  
They are friends of mine  
They are friends of mine  
And they've got something  
You don't often find
