

# Offset, My Friends

Well I caught sight of what I want  
Wish I may wish I might  
To be us forever  
And I have to say to you all by my side  
This song's for you

I'll be there when you call  
I will break your fall  
Cause I know that you'll be there right when I need  
Take my hand understand just what it means  
To be a friend to me

I won't lie but I may come one day come one night  
Dry my tears on your shoulder  
And mine will be there anytime that you need  
Don't hesitate

I'll be there when you call  
I will break your fall  
Cause I know that you'll be there right when I need  
Take my hand understand just what it means  
To be a friend to me

I will break your fall

I'll be there when you call  
I will break your fall  
Cause I know that you'll be there right when I need  
Take my hand understand just what it means  
To be a friend to me
