

Offset, Your Shut Eyes

Waking up to you is like a dream
The sun sneaks through my blinds and shines across your eyes
I want to take you by the hand
And pull you out of sleep
Put you in my car and take you for a ride

The stars I see
Above tonight
Do not compare
To your shut eyes
And all I want
Is to hold on

The sky above we're all alone
I hold you in my arms
We're not very far
Come crash into me
So close to feel
Close enough so you can hear my heart scream

We've only just begun this
We've only just begun this
We've only just begun this
I can see your future in your eyes
We've only just begun this
We've only just begun this
We've only just begun this
I can see your future in your eyes

The stars I see
Above tonight
Do not compare
To your shut eyes
And all I want
Is to hold on

To hold on
