

Oi Polloi, Boot down the door

United we stand, divided we fall
skins and punks rally to the call
now's the time to change this land
and it's your duty to lend a hand

We gotta boot down, boot down, boot down the door
Smash their oppression - smash their law! [x2]

Those in the power have had their own way too long
it's our duty to put right what they put wrong
We've got to put an end to their wars and their laws
and their taking of decisions behind closed doors

We gotta boot down, boot down, boot down the door
Smash their oppression - smash their law! [x2]

There's so much more life than violence, greed and hate
We must put them behind us before it's too late
cos the end is getting nearer day by day
But you know it doesn't have to be that way

We gotta boot down, boot down, boot down the door
Smash their oppression - smash their law! [x2]

We gotta boot, gotta boot, gotta boot down the door
Smash their oppression - smash their law! [x4]
