

Olga Matuszewska, Dream

When I was a little girl,
I thought dreaming never could desert me
When I was a little one,
Didn't listen when they taught me
Don't you ever wish for a shining start, it's too far, it's too far

I say dream when you open your mind you will see,
Fear is not on your side
Take the courage and open your heart,
Don't be afraid to try

I say dream, search deep down in your heart,
Feel like a child that can fly
Spread your wings and don't you be scared to jump

Times get harder we all fall down,
Only dreamers can get up
When the darkest cloud's in the skies
Silver lining will show up

Often you may think it's not worth to try,
don't let fear to rule your heart

I say dream when you open your mind you will see,
Fear is not on your side
Take the courage and open your heart,
Don't be afraid to try

I say dream, search deep down in your heart,
Feel like a child that can fly
Spread your wings and don't you be scared to jump

Now you must know that with you every try
You're getting closer to the place you want
So don't you dare to just get discouraged on your way,
Just try

So, Dream....
