

# Olivia O'Brien, i should've fucked your brother

You don't remember my birthday  
Or where we went on the first date  
You didn't text me after the earthquake  
Never asked if I'm okay  
I ended up with the wrong one  
And I think that I know the problem  
I should've gone with the other option  
It's not too late to crawl

There's someone else who looks just like you  
Can't help but notice how he looks at me

In one ear and out the other  
Finally showed me your true colors  
Naked with me while you still love her, damn (Damn)  
I should've fucked your brother  
I think I still have his number  
Why be with you when there's another?  
Naked with me while you still love her, damn (Damn)  
I should've fucked your brother

You are nothing more than a mistake  
All those days, the time that I wasted  
The only thing I liked was your face and  
Let's face it

There's someone else who looks just like you  
Can't help but notice how he looks at me

In one ear and out the other  
Finally showed me your true colors  
Naked with me while you still love her, damn (Damn)  
I should've fucked your brother  
I think I still have his number  
Why be with you when there's another?  
Naked with me while you still love her, damn (Damn)  
I should've fucked your brother

I know you're the same height  
But he's got a couple inches on you  
Maybe you should've played nice  
'Cause now who knows what I'm gonna do?  
Ooh-ooh-ooh

In one ear and out the other  
Finally showed me your true colors  
Naked with me while you still love her, damn (Damn)  
I should've fucked your brother  
I think I still have his number  
Why be with you when there's another?  
Naked with me while you still love her, damn (Damn)  
I should've fucked your brother

I think I'm gonna fuck your brother  
If I got time, I'll fuck your mother  
Boy, ain't that a motherfucker?
