

Oly., The Loneliest Whale On Earth (feat. Low Roa)

I'm falling slowly
I'm turning into falling
would you give me something
to help me fall softly?
when you wait for me
to overcome
everything that kills me from the inside
like the loneliest whale on Earth I swim
you can't hear my voice, my prayer
days are getting colder
and the distance bigger
stars mislead us on our way back home
can you hear their curses?
when you wait for me
to overcome
everything that kills me from the inside
like the loneliest whale on Earth I swim
you can't hear my voice, my prayer
