Omd, Then You Turn Away

I didn't want to see you Not when you're at your best And talk about the weather I couldn't pass the test So many things I do So many things I say Give you the wrong idea So many things I do So many things I say just make a fool of me Then you turn away Then you turn away I couldn't help but call you I waited almost all the week I didn't want to hear you Laughing aloud at me So many things I do So many things I say Give you the wrong idea So many things I do So many things I say just make a fool of me Then you turn away Then you turn away There's people saying that it's obvious That I'm wasting my time on you And people saying that it's obvious That I've fallen in love, it's not true So many things I do So many things I say Give you the wrong idea So many things I do So many things I say just make a fool of me Then you turn away Then you turn away
