## OMI, Hula hoop

Rollerskates, them lines
Have sun clear blue skies
The waves are crashing by
And when she passed me by
And gave a wink and smile
And I was on cloud nine
Lord

The way you move your hips
And lick your lips
The way you dip
You got me up so high (hey-ey)
And girl you got that body
With them curves like a Bugatti
I just wanna drive,

## And girl you know

Round and round your loving winds me up Like a hula, hula hoop, hula, hula hoop, oh Round and round your loving winds me up Like a hula, hula hoop, hula, hula hoop, oh Round and round your loving winds me up Like a hula, hula hoop, oh

And gravity defied I can not believe my eyes That thing can bring the tides, hey And round and round clockwise Like come here, we go right I wanna go all night, yes

The way you move your hips
And lick your lips
The way you dip
You got me up so high, yeah (hey-ey)
And girl you got that body
With them curves like a Bugatti
I just wanna drive, oh

## And girl you know

Round and round your loving winds me up Like a hula, hula hoop, hula, hula hoop, oh Round and round your loving winds me up Like a hula, hula hoop, hula, hula hoop, oh Round and round your loving winds me up Like a hula, hula hoop, oh

Round and round your loving winds me up Like a hula, hula hoop, hula, hula hoop, oh Round and round your loving winds me up Like a hula, hula hoop, hula, hula hoop, oh Round and round your loving winds me up Like a hula, hula hoop, oh
