

On My Honor, Sights Set High

So suck it up kid
Its time to put your money where your mouth is
And make change for everyone
Who said, youll never get it right
Thats not what the stage says
The stage, the curtain, or the lights
Or the kids who are singing along
With your life every night
And I wish
I wish I cared
I wish I cared and Im getting there
Doing all that it takes for me to get back here
Where I fell from
Ill be just fine
Ive got my sights set high
And dont give this up kid
Cause I know you know youll get through all of this
Like the times before
When youve fallen flat on your face
And you know thats exactly what they want to see
You, so low, begging from your knees
For some time or attention so they
Can all laugh at you and say
I wish
I wish I cared
I wish I cared and Im getting there
Doing all that it takes for me to get back here
Where I fell from
Ill be just fine
Ive got my sights set high
Where do you go when youre face down on the floor
Wondering what you fell from the night before
You know youve got to get up some time
Youve got to get up sometime
Where do you go when youre face down on the floor
Wondering what you fell from the night before
And everybodys left you behind
Theyve all left you behind
Where do you go when youre face down on the floor
Wondering what you fell from the night before
You know youve got to get up some time
Youve got to get up sometime
I wish I cared and Im getting there
Doing all that it takes for me to get back here
Where I fell from
Ill be just fine
Ive got my sights set high
