

# One Night Only, Forget My Name

So you wanna be famous  
I'll tell you something, you've got to get away  
I need some time in the sunshine, somewhere

You need the sun and the sea, and you've got in here  
You can dance, you can dance all night, yeah  
But I'll be leaving the soon as the sun comes up  
Are you gonna come with me someday?  
I'm going, I'm going

You know we're going to put up this way  
We'll be loud in the sky  
Tell me you wanna be famous someday  
I see the look in your eyes

You know we're going to put up this way  
We'll be loud in the sky  
On and on we keep on dreaming  
In the end you won't forget my name  
You won't forget my name

Caught up in the all of the action  
We're in the middle of streets, all painted goal  
Have you seen the reaction, lately?  
Of all the people we leave behind back home?

You can dance, you can dance all night, yeah  
But I'll be leaving the soon as the sun comes up  
Are you gonna come with me someday?  
I'm going, I'm going

You know we're going to put up this way  
We'll be loud in the sky  
Tell me you wanna be famous someday  
I see the look in your eyes

You know we're going to put up this way  
We'll be loud in the sky  
On and on we keep on dreaming  
In the end you won't forget my name

You know we're going to put up this way  
We'll be loud in the sky  
Tell me you wanna be famous someday  
I see the look in your eyes

You know we're going to put up this way  
We'll be loud in the sky  
On and on, we're always dreaming  
In the end you won't forget my name

We're always dreaming  
In the end you won't forget my name
