

# Onslaught, Tested To Destruction

Hell in my head  
Hell in my head  
Hell in my head  
Fearless I tread  
Hell in my head distorted eyes  
I face the inner enemy  
A mental scar the wounds are deep  
Am i alone in this dark reality  
You've no respect form me  
And I've no respect for you  
I'm your wounded pride  
I'm your suicide  
I am the cross you bear  
The thorn that's in your side  
I'm the loaded gun  
I am the damage done  
Was I the only one  
Tested to destruction  
War in my head  
War in my head  
War in my head  
War make me dead  
I live for war the way to die  
Bring on the taste of misery  
Violent the sound a bullet screams  
Here comes the pain here comes the agony  
You've no respect form me  
And I've no respect for you  
I'm your wounded pride  
I'm your suicide  
I am the cross you bear  
The thorn that's in your side  
I'm the loaded gun  
I am the damage done  
Was I the only one  
Tested to destruction  
Destroy  
Destroy  
Destroy  
Destroy  
Destroy.. your authority  
Destroy.. your psychology  
Destroy.. your immunity  
Destroy.. this hate in me  
You've no respect form me  
And I've no respect for you  
I'm your wounded pride  
I'm your suicide  
I am the cross you bear  
The thorn that's in your side  
I'm the loaded gun  
I am the damage done  
Was I the only one  
I'm your wounded pride  
I'm your suicide  
I am the cross you bear  
The thorn that's in your side  
I'm the loaded gun  
I am the damage done  
Was I the only one  
Tested to destruction
