

# opm, Kali Kings

I come from the West Coast small town south side  
Born in OC grew up in 805  
Flew the nest and ended up in LA  
Still a villin' still chillin' still smokin' on the challis  
They're like dogs in this place  
Other people pissin' on other people's real estate  
It's hard to live here  
People are aggressive so people live in fear  
With a lock you protect your block pop, pop goes the gloc  
Cause everybody else always wants what you got  
So stay on top of your game and try to retain  
Your own domain  
It ain't easy holdin' down the throne  
But California is where we call home  
Hell yeah we live like kings fuck bling bling  
Take a look at all these beautiful things  
Every single day the sunshine state  
Every single meal avocado on my plate  
Every single girl got a beautiful face  
Hell yeah I love this place  
Kali kings on the beach we sing  
Ain't really trippin' on a thing  
Can't really be worried  
About what tomorrow brings  
Kali kings on the beach we sing  
Ain't really trippin' on a thing  
Can't really be worried  
About what tomorrow brings  
I come from the coast with the most  
A host for parasites up close in tight long summer nights  
I ain't talkin' shit I ain't braggin'  
My pants are still saggin' and I'm still taggin'  
Grew up on the beach so that's where I got slurs in my speech  
I got stitches from skatin' ditches  
We call 'em hynas not bitches  
I'm devout to chillin' out  
This lifestyle here is what I'm all about  
No matter how we figure it out  
Just keepin' real y'all no doubt  
Life style so simplistic all y'all must of missed it  
Don't understand how we get on the pimp shit  
Live it every single day  
It's just another sunny day in LA  
Come on Cali  
Every single day the sunshine state  
Every single meal avocado on my plate  
Every single girl got a beautiful face  
Hell yeah I love this place  
Kali kings on the beach we sing  
Ain't really trippin' on a thing  
Can't really be worried  
About what tomorrow brings  
Kali kings on the beach we sing  
Ain't really trippin' on a thing  
Can't really be worried  
About what tomorrow brings  
Cali love is what I go t  
Whether I'm here or whether I'm not  
It's the good times sunshine on my mind al the time  
Friends like these are hard to find  
We're just some cats with some tats  
Still misunderstood  
Still hangin' out in the neighborhood  
It's all good we're just doin' our thing

Kickin' back with Johnny Richter and the Kottonmouth Kings  
Now there's a new face gracin' this fat ass track  
Swingin' harder than a motherfuckin' baseball bat  
I'm comin' strong repin' Cali all day long  
See we the kings of California home to bongs and thongs  
Now from the 310 to the 714  
So many people down to clown when it's time to get raw  
Don't try to test the waters we like hungry piranhas  
We'll leave you in a state of trauma  
Cryin' screamin' for your momma  
It's time to stand tall and take a look all around  
Remember where you're from I'm from P town  
Time to go and chase your childhood dreams  
Time to learn to fly so go and spread your wings  
Open up your eyes take off your shades and see  
You got to aim high you gotta believe  
Do what you want be what you want to be  
Dreams do come true just take a look at me and see  
Kali kings on the beach we sing  
Ain't really trippin' on a thing  
Can't really be worried  
About what tomorrow brings  
Kali kings on the beach we sing  
Ain't really trippin' on a thing  
Can't really be worried  
About what tomorrow brings
