

Orange Tree, Sailors

What's that silence who blew out the wind?
So raise your sails and wait for a hurricane...
Speed your boat throughout the ocean waves...
(Sirens) song carried on the breeze straight to your ears...

And I will pray for you to find the way
Just like the others
Where bell will ring announce that now you're home

No longer afraid of storm
Lighthouse charting the course
This boat will never sink

See how it's beautiful to spend every moment here...
Keep the correct course and look for a wind
Don't ask for Rouge Waves 'cause one day they'll come
(With Sirens) song carried on the storm straight to Your ears...

And I will pray for you to find the way
Just like the others
Where bell will ring announce that now you're home

No longer afraid of storm
Lighthouse charting the course
Somehow this boat will moor...

Why compare your life to someone else?
Why do you want to follow painted trails?
Speed your boat throughout the ocean waves!
You the Captain and you go down with your ship,....bye!

And I will pray for you to find the way
Just like the others
Where bell will ring announce that now you home

No longer afraid of storm
Lighthouse charting the course
This boat will never sink
