

Orbita Wiru, Hard to believe

Tolerance for other nations
All the people are the same.
I dont really care
What is your gods name.
Watch out! Untrue prophets
Theyll be screaming to your brain:
Our God is better than others,
more real than the rest.
Why is it difficult to say,
That your religion is killing your faith.
Its so hard to believe it
Religions killed your faith.
I dont care about the shape of your cross,
Ignore religious rules,
God is inside you,
Visible in your soul.
You dont have to show me
How loud are your prayers.
Givin` people love,
Youll be giving a god.
Why is it difficult to say,
That your religion is killin` your faith.
Its so hard to believe it
Religions killed the faith.
