

Order of Týr, Graviton Lifebomb

Wake to the sound of a change in the atmosphere
Coming from beyond
Jump to your feet with a tingling sense of fear
What could be wrong?

Racing to the side of those you love to try to see
Hand placed on the door you catch your breath and look at me
Unlocking the chain turning the key pull back the door
Forget all that you know it's all been changed everything's gone away

Graviton Lifebomb
Lighting up the night
Changing our lifeforce
Everything in sight

Graviton Lifebomb
Warping our minds
Changing all that we know
Completely new design

Stepping out the door into a world of the unknown
Everything is new can't help but feel you're all alone
Standing by your side you take my hand and look at me
I am no longer the person you thought I'd be

Graviton Lifebomb
Lighting up the night
Changing our lifeforce
Everything in sight

Graviton Lifebomb
Warping our minds
Changing all that we know
Completely new design

Standing by your side you take my hand and look at me
I am no longer the person you thought I'd be
