

Osada Vida, Stronger

You keep hangin' on with life
That's never free
Taking everyday like that's the last you'll ever see
You try to keep your smile
Instead you're sad inside
It isn't hard to see
You're steppin' into the night

I wish I never see your pain
It's really hard to explain
With all your tears you cry inside
You shouldn't stop your fight

It's your life
I'm tellin' you
You almost died,
But you can't loose
We need to try
All we can
To stay alive
And be the stronger man

You've got to keep your faith
Even if it's hard to try
So you could feel
That someone finally found the cure
It's not that easy way
To pretend that you're alive
When almost every part of you
Is dying in your eyes

I've been crying much too strong
I am praying for your soul
But inside there is a hope
That we'll stay together still so long
