## Ozzy Osbourne, Never Know Why

(Daisley - Lee - Osbourne)

If we're offensive and pose a threat You fear what we represent is a mess You've missed the message that says it all And you'll never know why Oh no, you'll never know why We rock

It's just a feeling how we excite You cannot rule everybody in sight But you condemn, don't understand And you'll never know why Oh no, you'll never know why

We rock, rock, rock We rock, rock, rock We rock, rock, rock You'll never know why We rock

I leave you cold and in disgust Don't try to tame me, you'll eat my dust I know that you know not what you do That's why you'll never know why Oh no, you'll never know why

We rock, rock, rock
We rock, rock, rock
We rock, rock, rock
You'll never know why
We rock, rock, rock
We rock, rock, rock
We rock, rock, rock
You'll never know why
We rock
