

# P.O.D., Addicted

Intoxicated, viral poison

Girl, fill me up with nothing in myself but

Mutilation

You'd let me blow my brains, go insane

Throw it in my face and watch me chase it

Stimulate, wide awake

Need to stop this pain inside my head

Cause its laughing at me

Injection, explosion

Burning acid surges through my veins

Cause I, (Cause I) I'm addicted (I'm addicted)

To all the colors that I see that you hold in front of me

You will change, (You will change) you will change (You will change), yeah you will change me (Yo

Why do I love you when I know, love you when I know that

I, I'm addicted

To all the colors that I see that you hold in front of me

You will change (You will change), you will change (you will change), yeah you will change me (you

Why do I love you when I know, I love you when I know you're wrong

Over and over

Indulges in anyone or anything that makes you feel

So alive

I am electrified, I'm so high

Numb to all of you who are just

out to get me

Fascinate, escalate

Cast a spell and maybe I might

Forget, who I am

Cowardice, selfishness

Thank you for letting us watch you die

Cause I, (Cause I) I'm addicted (I'm addicted)

To all the colors that I see that you hold in front of me

You will change, (You will change) you will change (You will change), yeah you will change me (Yo

Why do I love you when I know, love you when I know that

I, I'm addicted

To all the colors that I see that you hold in front of me

You will change (You will change), you will change (you will change), yeah you will change me (you

Why do I love you when I know, I love you when I know you're wrong

Liar!

You are a liar!

Liar!

You are a liar!

Cause I, (Cause I) I'm addicted (I'm addicted)

To all the colors that I see that you hold in front of me

You will change, (You will change) you will change (You will change), yeah you will change me (Yo

Why do I love you when I know, love you when I know that

I, I'm addicted

To all the colors that I see that you hold in front of me

You will change (You will change), you will change (you will change), yeah you will change me (you

Why do I love you when I know, I love you when I know you're wrong
