

# P.O.D., Here We Go

He never knew the meaning  
Of love until he'd seen her  
Oh man, she really drives him crazy  
And she knows what she's doing

Heart aches, he can't fight this feeling  
And won't stop until he tells her  
She is his one and only lady  
And you got to believe me

It's what he said, what he said  
This is what he said

If you take my hand  
We can run away  
Stay close to my love  
'Cause here we go again  
Don't let go of my hand  
So we can fly away  
If you trust in my love  
This will never end

She never did believe in  
Love until she'd seen him  
He's got to be pretty amazing  
For her to share what she's feeling

She takes the chance, time for living  
If she wants to get with him  
She said you're gonna think I'm crazy  
But you got to believe me

It's what she said, what she said  
This is what she said

chorus

bridge:

Seems like we spend so much time  
Driving this to its knees  
I guess i won't really mind  
If we're living for you and spend so much time  
Driving this to its knee  
I guess I won't really mind  
If we're living for you and me

And this is what we said

chorus
