

# P.O.D., Space (PhatHeads Remix)

Here we come  
Jah right  
And the sight you mighta heard  
If the word ain't feelin the streets beat the third  
The fourth if ya ready  
Ya make my belly get sick  
The way you talkin so loud  
Who you rollin with  
Move coward  
You sweet and sour  
Let me introduce you to friend of ours  
You better look bolth ways before you cross this road  
You wanna tangle with the boys/What you watin for/What?

Chorus:  
If you got something to say  
Haha, You better say it  
Or don't even look my way (I wantcha to, I wantcha to)  
And if you pull that card to play  
Haha, You better play it  
Cause if not get outa my face  
And don't waste my time.

Street tested  
Tangle through  
Make your move  
My crew we wanna prove  
From the bottom to the top  
Top to the bottom  
We got em lock  
And lock is how we got em  
Gave birth to this game  
Pay dues for his name  
If your trains about to end  
And I'm gonna send it away  
I was built for this role  
And I own it  
I take the plane  
Keep talkin real big and watch me do big things  
What?
