

P1Harmony, Breakthrough (Full Version)

Wuh Wuh
Wuh Wuh

In the same room, in bed
Just looking at the clock
Has become my new job
Mindless puppets outside
They may seem different
But they are all thinking the same way

The suffocating creases of their pants
Their life is like an iron
As if they've all been pressed the same
But I don't want to step on the safe path
I want to establish a different way

The rusty sewing machine
Doctor and judge uniforms don't suit me
I'm not some clothes hanger
I'm not a decoration, I'm just me

Oh why pretend
Why did I pretend to be okay with this?
Have I thrown myself away?
Oh I regret
After I turn myself around from being trapped
I'm filling myself up each day again

I already know
Already know got your back
I know how to be me
You know how to be you, yeah yeah
Pain will be there no matter what I try
The difference between yesterday and today

Break the borders
Cross the borders
Break down all borders

Hey ooh ooh
I'm going towards the me that I wanted
(I'm going towards the me)

Hey ooh ooh
Break the borders
Cross the borders
Break down all borders

Wuh Wuh

Outside the border or inside the border, it's not that easy
Filled with unhappiness
And worries

A rotten lizard tail is the thing of the past
Accept it and learn, is respect dead?

Oh why pretend
Why did I pretend to be okay with this?
Have I thrown myself away?
Oh I regret
After I turn myself around from being trapped
I'm filling myself up each day again

I already know
Already know got your back
I know how to be me
You know how to be you, yeah yeah
Pain will be there no matter what I try
The difference between yesterday and today

Break the borders
Cross the borders
Break down all borders

Hey ooh ooh
I'm going towards the me that I wanted
(I'm going towards the me)

Hey ooh ooh
Break the borders
Cross the borders
Break down all borders

We got the key to open up the way
Don't stop we have no time yeah
What does it mean to be yourself?
The sun will rise, now open your eyes

The walls that blocked us
They're not that tall anymore, jump over them and follow me
Awaken your heart
From being trapped in the borders

Hey ooh ooh
I'm going towards the me that I wanted
(I'm going towards the me)

Hey ooh ooh
Break the borders
Cross the borders
Break down all borders
