

# Pain, On Your Knees (Again)

I'm going for a ride  
And I hope I'll never ever get back here again  
Numbing my body with drugs and lies  
Try to find a place where  
I can finally die

Walk with me on the other side  
and I show what life is all about  
The rush I get from death  
It's all that eggs me to die

Every dream must die  
As I try to drag you down in the dirt  
Why is life worth living  
When we all just live to suffer and Sacrifice  
Life is like a wheel  
You can run and run and you will never get there  
Spinning faster than you could  
Understand  
You're on your knees again  
You're on your knees again...
