

Pain, Save Me

Waking up from this dream
Got a feeling that something is wrong
There's blood in the bodies everywhere
What the hell have I done
Was I walking in my sleep or is it just a conspiracy
All I know that I'm in too deep

Save me
Please wake me up from this dream
Save me
How am I supposed leave

I lost my family, lost my jobs and my friends
There's nothing left for me to live in this hell
All I remember is there was said goodnight
And on my life is living hell

Save me
Please wake me up from this dream
Save me
How am I supposed leave

Save me
Please wake me up from this dream
Save me
Where the hell did I do wrong

Where I go wrong

I need the pictures in my dreams
Where in every deposit is
Then I'm ever gonna be dream
I can't erase your memory

Save me
Please wake me up from this dream
Save me
How am I supposed leave

save me
Please wake me up from this dream
Save me
Where the hell did I do Wrong

Save me

Where I go wrong

Save me
