## PALAYE ROYALE, Broken

In my head All this pain And the words that I cannot say I'm trying I'm trying to be The man that you wanted to see

I'm tired and I'm hurt
And I always try to put you first
But you say I'm not worth it to you
So why are you worth it to me?

Broken, broken, broken You know that I've always been Broken, broken, broken You know that I've always been

You break my heart
'Cause you're never home
Always with your friends
Always on your phone
I try so hard
But you're just playing games
I needed you tonight
But you got high again

I'm tired and I'm hurt And I always try to put you first You say I'm not worth it to you So why are you worth it to me?

Broken, broken, broken
You know that I've always been
Broken, broken, broken
You know that I've always been
Heartbreaks and mistakes
With no change
How did we become this way?
Broken, broken, broken
You know that I've always been

The nights are long
And the days won't end
No more love between us
Let's not pretend

You're going out and You're dressing down It's so typical

Like you're someone else You're someone else

I'm tired and I'm hurt And I always try to put you first But I see I'm not broken like you And you are not broken like me

Broken, broken, broken You know that I've always been Broken, broken, broken You know that I've always been Heartbreaks and mistakes with no change
