

Pani Galewska, It's OK. I Get It.

Question:

What do you think about me?
It is funk running through your veins?
Because I
Feel it even in my knees
Feel it even in my knees
It's just pushing me
Forward
To the line
Where the best tunes live and hide

So let's get back to the question number two:
Is there anything you'd like to change in you?
Is there anything or you're just happy being you?
Don't wanna say: "Aha"
It's ok
I get it
No, stop, I won't ask you again

So the question three
We just pass and now we see
Four question:
What you believe in?
Nothing is not the answer
You have to have something
Running through your veins
Like in mines is funk
And good luck
It is important
To have it both
Without it you're like without a soul

So think about it and write
Me back
If you're happy I don't mind the check
Can be written in old fashioned way?
Just think about you and stay away

Can be written in old fashioned way?
Just think about you and stay away
