

# Paolo Nutini, Rainbows

Coming up on what you wait  
And everything is the same to you  
You looking up at the sky among the sea all blue  
You started it then such a lost for words  
Oh thank God you never thought this through  
Feel the breeze as it slowly starts to burn on you  
When I see rainbows, I just fly  
We're kissing rainbows in the sky  
When I see rainbows, yes I feel so high  
We're kissing rainbows yes you and I  
You started it then such a lost of words  
What I first thought what you heard about me  
There is a guarantee plenty more is on it's way  
Oh and I'm singing songs for the first time  
And there is a chance to be yourself  
Take you business and share with everyone else  
When I see rainbows, I just fly  
We're kissing rainbows, you and I  
When I see rainbows yes I feel so high  
We are kissing rainbows, bloody rainbows in the sky  
Coming up on what you wait  
And everything is the same to you  
You looking up at the sky among the sea all blue  
Oh when I see rainbows, I just fly  
We're kissing rainbows, you and I  
Oh when I see rainbows yes I feel so high  
We're kissing rainbows, bloody rainbows in the sky  
When I see rainbows yes I feel so high  
We're kissing rainbows, in the sky  
When I see rainbows yes I feel so high  
We're kissing rainbows yes in the sky
