

PAPA, Put Me To Work

I wanna see the lights
put me to work tonight
the one who money pain I'll work until he rise
this one that would wish it thought would be
Blurred off and swear them blue knew what you need.

By the..chains and silhouettes
your shadow box and ___
With every breath
I feel to have my maniac crucifix
But last we would kiss.

I wanna see the lights
put me to work tonight

I wanna see the lights
put me to work tonight

I wanna see the lights
put me to work tonight

I wanna see the lights
put me to work tonight
