

# Papa Roach, Broken As Me

You just as broken as me

...

We're only getting sick  
From the secrets we hide  
Disaster is, a master is  
We lay here burning in bed  
But something tells me  
I cannot kill someone new yet  
I will knock you out, burn you today

I will forgive, forgive  
'Cause I know that it will set me free  
But all that's left is the emptiness inside of me  
You murder my heart  
Broke my trust and watch me fade away  
Now I see, now I see  
That you just as broken as me  
You just as broken as me

You always play the victim  
And you just can't decide  
All the wishes when we love each other  
You always play the victim  
And you just can't decide  
All the wishes when we love each other  
Fuck up our lives

..

This is what left  
If you really love me  
Will you love me today?  
I will love till dead!

I will forgive, forgive  
'Cause I know that it will set me free  
But all that's left is the emptiness inside of me  
You murder my heart  
Broke my trust and watch me fade away  
Now I see, now I see  
That you just as broken as me  
You just as broken as me
