

Papa Roach, Still Swingin

Number One, step it up
Spit the fire, we're back get up!
Getting in and turn it out
We're killing it, go burn it out
Never change, never break
Never will got a fake
Set it up, go underground
Go filling it out, this future sound

Non stop
Devil stay in everything
On top
Never coming down
I've got my hands in everything
Non stop
Never coming down

We're just living for today
Keep on light on in the haze
Yeah forever we will stay
We're the ones still swinging
We are a beacon in the dark,
A lighthouse risen from the heart,
We've been here from the start,
We're the ones still swinging

We're dangerous, passion it
Watch your back
We're stabbing it
Hold on and hold up
I slash your faces every night
We don't who know?
Never will, never kill,
We always kill,
Thumbing up
And I will attack
Cause PRoach is the new plan

Non stop
Devil stay in everything
On top
Never coming down
I've got my hands in everything
Non stop
Never coming down

We're just living for today
Keep on light on in the haze
Yeah, forever we will stay
We're the ones still swinging
We are a beacon in the dark,
A lighthouse risen from the heart,
We've been here from the start,
We're the ones who still swinging

We're the ones still swinging (ones still swinging)

Non-stop
Devil stay in everything
On top
Never coming down
I've got my hands in everything
Non stop
Never coming down

We're just living for today
Keep on light on in the haze
Yeah forever we will stay
We're the ones still swinging
We are a beacon in the dark,
A lighthouse risen from the heart,
We've been here from the start,
We're the ones still swinging
