

Paper Wolves, Normal After All

I'm gonna show you all dress up
Just to get a reaction
Low and shooted up
Now for fading reaction
Will it be anything
I don't know

Suppose we get marry
But I wish I never met her
This is the old guy in the world
?

We love
We cry
We only sleep to rest our hours
If you sit alone you always say goodbye
We cheat
We lie
We work than die
At least we know we're normal the way
At least we know we're normal the way
At least we know we're normal after all
