

Paradise Lost, Red Shift

There's something in the air that greets me
There's something in the air
I don't know where I belong
Or where does it go from here
See my dreams
They are not like anyone's
Anyone's
There's something in your stare that greets me
There's something in your stare
That tells me where I belong
Or where it all goes from here
I don't know where I belong
Or where it all goes from here
See my dreams
They are not like anyone's
Anyone's
There's something in the air that greets me
There's something in the air
I don't know where I went wrong
Or where does it go from here
See my dreams
They are not like anyone's
Anyone's
