## Paramore, Oh Star

Oh star fall down on me Let me make a wish upon you Hold on, let me think Think of what I'm wishing for

Wait, don't go away. Just not yet. Cause I thought, I had it. But I forget.

And I won't let you fall away, From me. You will never fade. And I won't let you fall away. From me. You will never fade away from me.

And now I let my dreams consume me, And tell me what to think. But hold on, Hold on. What am I dreaming?

Wait, don't go away. Just not yet. Cause I thought, That I had it. But I forget.

And I won't let you fall away, From me. You will never fade away. I won't let you fall away. You will never fade away.

And I won't let you fall away. You will never fade away. And I won't let you fall away from me, You will never...

Oh star fall down on me.
