

# Parlour Steps, Lord, Do Hold Me!

Lord, do hold me  
And my family  
I've been faithful to the good and the bad luck  
That you have thrown to me

Look out over  
The people and their land  
Does it give you sad sorrow, my friend?  
Are we that hard to understand?

"And I'll hold you to the water  
I'll hold you to the actions you're taking  
I'll hold you to the water  
I'll hold you to the sea"

Are we truly worth it?  
Forgiveness and second chance  
Life's a very messy thing, my friend  
Bathtub rings and bad romance

So suck it up, baby  
It's hard for everyone  
When we die we can complain  
To the big man in the sky
