

# Patrice, Have You Seen It?

Verse:

At their tables  
Families sit around and air their feelings  
At their tables  
Taking daily sustenance  
Watching tv spewing forward with the awful dealings  
They caress us with their damning evidence

Chorus:

Tell me have you seen it  
Have you seen the news today  
coz we best believe it  
There must be another way  
There is no mistaking  
All the suffering we see there  
Even though we fake it  
Still deep inside we care

Verse:

When I see the waring everywhere  
Unfortunately  
It makes me cry to be a world wide resident  
Its their love of glory  
And your lack of overstanding yeah  
So please change your thinking there  
Behind the president

(Chorus)

Bridge:

Why complain  
You look OK  
And you can pay it off  
Youre free of stains  
Can get no blame  
Till you have had enough  
Move smooth these days  
Your dollars pay  
To cut the pain right out  
Your groove it plays  
The ghetto way  
No you dont have no doubt

(Chorus)
