Patti Austin, In My Life

Although music is sweet But the song incomplete Now in my life, Boy in my life Something is missing

It's the truth, yes it's true Still there's no me and you Here in my life Boy in my life Something is missing

In my life there ain't no melody oh no In my life there ain't no harmony To let me sing a song

All I need is a cue when I'm waiting for you here in my life Boy in my life You are the melody Coz in my life You are the song

uh oh
In my life there aint no melody oh no
In my life there ain't no harmony to let me sing a song
All i need is a cue while i'm waiting for you here in my life
Boy in my life
You are the melody
Coz in my life
You are the song
Baby in my life
You are the song
You are the melody
To me baby, in my life
You are my song
