

Paul Brandt, The Way In A Manger

We were alone in the fields with our sheep
A star in the sky glowing bright in the east
When an angelic choir singing all glory be
To God in the highest, bade us come see (they said)

The way in a manger is a babe fast asleep
He's never a stranger to wise men who seek
The light and the hope for all of mankind
He's the way in a the manger
And He's easy to find

Mary and Joseph were there when we came
All that the angels had said was the same
And when I saw the baby I knew just what to do
I bowed down to worship the light and the truth

The way in a manger is a babe fast asleep
He's never a stranger to wise men who seek
The light and the hope for all of mankind
He's the way in a the manger
And He's easy to find

The light and the hope
For all of mankind
He's the way in a manger
And he's easy to find
