Paul McCartney, Fuh You

come on baby now let me look at you talk about yourself try to tell the truth

I can stay up all night try to crack your code I can stay up all night but I'd rather hit the road

on the night I met you
I was on the town
on the night I met you
I just want to know
how you feel
the word the love
is so proud and real
you make me wanna go out and steal
i just wanna fuh you!
i just wanna fuh you!

come on baby now hel me work it aout i don;t let you down

I can stay up all night playing with your hed I can stay up all night but I'd rather hit the road

on the night I met you
I was on the town
on the night I met you
I just want to know
how you feel
the word the love
is so proud and real
you make me wanna go out and steal
i just wanna fuh you!
i just wanna fuh you!
