## Paul McCartney, I Like It

Please don't take my heart away It's happy Where it is so let it stay You gave me love You gave me what I wanted You gave me love your way

I've seen it
Shining from the furthest stars
Like Venus
Saw it on the way to Mars
You gave me love
You gave me what I wanted
You gave me love your way

Your way is strong You way is right Your way is mine tonight

I like it
Please don't take my heart away
It's happy
Where it is so let it stay
You gave me love
You gave me what I wanted
You gave me love your way

Your way is strong You way is right Your way is mine tonight

Your way is strong You way is right Your way is mine tonight
