

# Paul McCartney, Only Our Hearts

If only my love was here  
I'd be taking the time to feel it  
Washing over my body and soul  
If only my love, only my love was here

I wish that my heart was strong  
I'd be letting it beat, much faster  
At the thought of you holding me near  
I wish that my heart, wish that my heart was strong

Hoping to be where you are  
Of longing to be your lover  
Don't want to ever be far  
Apart from you my love  
But only our hearts will know  
If were going to spend it together  
Only gone to the dreams that we share  
Only our hearts, know how much love is there

Hoping to be where you are  
Of longing to be your lover  
I don't want to ever be far  
Apart from you my love

But only our hearts will know  
If were gonna to spend it together  
Holding on to the love that we share  
Only our hearts, know how much love is there  
Yes only our hearts, know how much love is there
