

# Paul McCartney, What It Is

(McCartney)

You are what it is that makes the world go around for me.  
You are what I need, you make me feel good about myself.  
You see, I love you so much, I can never do without your touch, I'm like a busy honeybee.  
I'm always hungry for it, how could anyone ignore it, surely everybody will agree.

That you are what it is that makes the cloud roll around the sky.  
Oh yeah, you got what it takes, you make me proud to be who I am.  
You see, I love you so much, I can never do without your touch, I'm like a busy honeybee.  
I'm always hungry for it, how could anyone ignore it, surely everybody must agree.

That you are what it is that makes the world go around for me.  
Yeah, you got what I need, you make me feel good about myself.  
Well, you are what it is that makes the world go around for me.  
Yeah, you got what I need, you make me feel good to be myself.

You see, I love you so much, I can never do without your touch, I'm like a busy honeybee.  
I'm always hungry for it, how could anyone ignore it, surely everybody must agree.

That you are what it is that makes the world go around for me.  
You make the world go around for me,  
yeah, you make the world go around, world go around, world go around for me, you're what it is.
