

Paul Weller, One Bright Star

I want you
I only want you
You're the one bright star, in my eyes

I only need you
I only need you
You're the one bright star, shine for me

Without you,
I feel nothing
My one bright star, shine for me.

I love you
I only love you
You're the one bright star, in my life

I need you
I only need you
you're the one bright star, shine for me

Without you
I feel nothing
My one bright star, shine for me.
