

Paulina Kalembe, Just Be With Me

Hey, I miss you every day, but I know you are there.

Hey, I couldn't say goodbye, so I said: "I love you so much".

Every one day, it's like way to your earth
But I know, I can't see you anymore.

Open your heart and sit in front of me,
I want to sing you my dreams.
I don't wanna be alone anymore,
Please look at me.
And say what you need,
Where you are don't think,
Maybe say, that you love me.

Just be with me,
Be with me.

Hey, close your eyes and hear, I want back time for year.
You, always said: "You are the one, who have the talent, have the heart".

Every one day, it's like way to your earth
But I know, I will love you for forevermore

Open your heart and sit in front of me,
I want to sing you my dreams.
I don't wanna be alone anymore,
Please look at me.
And say what you need,
Where you are don't think,
Maybe say, that you love me.

Just be with me,
Be with me.

And say what you need,
Where you are don't think,
Maybe say, that you love me.

Just be with me.
